

March 2022
NeASFAA Spring Conference 2022
Private College Sector Report

I attended all board meetings during 2021-2022 and prior to each meeting I reached out to my colleagues to ask for any staff changes, celebrations, and/or concerns and questions that could be brought before the Board. Response was minimal with only a few changes in positions and responses to the return to in-person meetings with most either not having the funding for travelling or not having their restrictions lifted allowing them to travel.

I hosted three Zoom Calls within the Private Sector to discuss COVID-19, HEERF funds/reporting and just general catch-up. Participation was minimal.

I did send out a final email request for stories, pictures and announcements as well as a request for annual nominations but did not get any response.

I have enjoyed the past two years and have learned some very valuable things that I will take with me.

Respectfully,

Susan Collins
Private College and University Sector Representative
